

Reception Class Home Learning Activities

Week beginning 27th April 2020

Please find below some home learning activities that you may like to try this week. Don't forget that new activities will also appear on your Purple Mash 2do list throughout the week. Remember that these activities are only suggestions. You should not feel under any pressure to complete them. Your well-being as a family comes first and there are lots of lovely activities already going on in lots of homes as we have seen through some of your photographs on our school Facebook page.

As well as the suggestions below please also take a look at:

- <https://www.bbc.co.uk/bitesize>

Select England then click on KS1 (there is not a specific section for Reception but many of these activities are appropriate). Especially useful are the Phase 2 and 3 phonics, counting & ordering, number bonds and adding and subtracting.

- Oak National Academy website. If you select Classroom then Schedule, Reception you will find 3 lessons per day in Maths, English and Foundation (Topic)
- <https://www.facebook.com/ChildrenandFamiliesInformationService/> The Cumbria Early Years team are posting a simple daily activity each morning for children and families to try together at home. I will share them on our page each day.

Some other ideas for this week

Reading

See if you can read a book every day. You might like to listen to a story read by a grown up in your house. You could look for tricky words in the book and see if you can read some of the words by yourself.

Also go to www.oxfordowl.co.uk to find ebooks like the ones we have in school. It's free to register and there is a large selection of books to read.

Make sure you keep reading your tricky words as well.

Writing

I hope you are enjoying writing and drawing in your exercise books. It will be lovely to see what you have been up to each week when we return to school.

Perhaps you could take a tub of water and a paint brush outside and write your name on the walls of your house or on the ground? Watch how quickly your name disappears in the sunshine. If you have any chalk you could write with these too.

Practise writing your full name with pens or pencils every day. Make sure you form the letters correctly.

Maths

Keep practising your number skills. Write out some number cards (1-20) and place them in order. Can you say the number that is one more and one less than a given number?

Try counting up and down from different starting points.

Choose 2 numbers to add together. Use something to help you such as a pile of crayons or some pegs.

Practise writing numbers as well. Remember to form them correctly.

P.E. and Art

I have heard that some of you have been trying out the Joe Wicks workout. If you haven't tried it yet, then log on at 9am and give it a go!

Enjoy going for a walk with your grown-ups. See if you can hear any birds singing or find some Spring flowers. Perhaps you could take a photo and try and draw them when you get home?

You could share some photos of your art work on our [Facebook page](#).
