

Reception Class Home Learning Activities

Week beginning 4th May 2020

Please find below some home learning activities that you may like to try this week. Don't forget that new activities will also appear on your Purple Mash 2do list throughout the week. Remember that these activities are only suggestions. You should not feel under any pressure to complete them. Your well-being as a family comes first and there are lots of lovely activities already going on in lots of homes as we have seen through some of your photographs on our school Facebook page.

As well as the suggestions below please also take a look at:

- <https://www.bbc.co.uk/bitesize>

Select England then click on KS1 (there is not a specific section for Reception but many of these activities are appropriate). Especially useful are the Phase 2 and 3 phonics, counting & ordering, number bonds and adding and subtracting.

- Visit <https://www.thenational.academy/online-classroom/reception#schedule> Here you will find 3 lessons per day in Maths, English and Foundation (Topic).

Some other ideas for this week

Reading

Go through all the letter sounds in your wallet and see if you can say them correctly to a grown up.

Try and make some words using your cards. Ask a grown up to give you a word to make.

Try and read all your tricky words. Don't read them in order. Muddle them up to make sure you REALLY know them.

Share books with your family. When you have listened to a story see if you can remember the names of the characters in the story. Where did the story take place? In a house, a wood, in space? Can you remember what happened in the beginning, the middle and at the end?

P.E. and Foundation

Keep going with the Joe Wicks workout! It is also on the National Academy website so it's easy to find.

What can you make with a toilet roll tube? There are some ideas on the twinkl website or think of your own. Decorate your model with pens, paint or paper.

Try and get yourself ready in the mornings. Get dressed (practise doing up buttons and zips), have a wash and brush your teeth. Can you get your own breakfast as well?

Writing

Practise writing your full name with pens or pencils every day. Make sure you form the letters correctly.

See if you can write some tricky words. Ask a grown up to read some out for you to write or test yourself and see how many you can write from memory.

Draw a picture and write a message to say thank you to our key workers and pop it in your window for them to see.

Maths

Keep practising your number skills. When you are out doing your daily exercise, look for numbers all around you. Can you say the numbers you see on doors, gates, buses, wheelie bins?

Try playing some simple board or card games with your family or build a jigsaw.

Can you use your lego to make a tower that is 15 blocks high and another that is 5 blocks high? How many blocks are there if you put the towers together? Try this with other numbers.
