1. INTRODUCTION

The Equality Act 2010 replaced all previous equality legislation such as the Race Relations Act, Disability Discrimination Act (DDA) and Sex Discrimination Act.

The Equality Act 2010 provides a single, consolidated source of discrimination law, covering all the types of discrimination that are unlawful. It simplifies the law by removing anomalies and inconsistencies that had developed over time in the existing legislation, and it extends the protection from discrimination in certain areas.

The law on disability discrimination is different from the rest of the Act in a number of ways. The overriding principle of equalities legislation is generally one of equal treatment. However the provisions in relation to disability are different in that you may, and often must, treat a disabled person more favourably than a non-disabled person.

There are some minor differences around disability in the new Act when compared with the previous legislation.

- The Equality Act does not list the types of day to day activities which a disabled person must be unable to carry out to meet the definition.
- Failure to make a reasonable adjustment can no longer be justified. The fact that it must be 'reasonable' provides the necessary test.
- Direct discrimination against a disabled person can no longer be justified (bringing it into line with the definition of direct discrimination generally).
- From September 2012 schools and local authorities will be under a duty to supply auxiliary aids and services as reasonable adjustments where these are not being supplied through a statement of SEN.

As in previous legislation a school must not discriminate against a pupil because of something that is a consequence of their disability.

It is unlawful for a school to treat a disabled pupil unfavourably. Such treatment could amount to:

- Direct discrimination
- Indirect discrimination
- Discrimination arising from a disability
- Harassment

Direct discrimination can never be justified but a school could justify indirect discrimination against a disabled pupil, and discrimination arising from a disability if the discrimination is the result of action that is a 'proportionate means of achieving a legitimate aim'.

2. DEFINITION OF DISABILITY

Equality Act 2010: a person has a disability if:

- they have a physical or mental impairment
- the impairment has a substantial and long-term adverse effect on their ability to perform normal day-to-day activities

For the purposes of the Act, these words have the following meanings:

- 'substantial' means more than minor or trivial

- 'long-term' means that the effect of the impairment has lasted or is likely to last for at least twelve months (there are special rules covering recurring or fluctuating conditions)
- 'normal day-to-day activities' include everyday things like eating, washing, walking and going shopping

People who have had a disability in the past that meets this definition are also protected by the Act.

Progressive conditions considered to be a disability

There are additional provisions relating to people with progressive conditions. People with HIV, cancer or multiple sclerosis are protected by the Act from the point of diagnosis. People with some visual impairment are automatically deemed to be disabled.

Conditions that are specifically excluded

Some conditions are specifically excluded from being covered by the disability definition, such as a tendency to set fires or addictions to non-prescribed substances.

It should be noted that this definition is *not just regarding physical difficulties* but also covers a wide range of:

- Sensory difficulties
- Learning difficulties
- Impairment resulting from, or consisting of, a mental illness

In addition there is a range of 'hidden impairments' such as:

- Dyslexia
- Speech and Language Impairments
- Autism
- Attention Deficit Hyperactivity Disorder (ADHD)

Impairment does not itself mean that a pupil is disabled but rather it is the effect on the pupil's ability to carry out normal day-to-day activities in one or more of the following areas that has to be considered:

- Mobility
- Manual dexterity
- Physical co-ordination
- Continence
- Ability to lift, carry or otherwise move everyday objects
- Speech, hearing or eyesight
- Memory or ability to concentrate, learn or understand
- Perception of risk of physical danger

3. REASONABLE ADJUSTMENTS

We have a duty to make reasonable adjustments for disabled pupils:

- When something we do places a disabled pupil at a substantial disadvantage to other pupils, we must take reasonable steps to avoid that disadvantage;
- We will be expected to provide an auxiliary aid or service for a disabled pupil when it would be reasonable to do so, and where such an aid would alleviate any substantial disadvantage the pupil faces in comparison to his non-disabled peers.

A failure to make a reasonable adjustment can no longer be justified. The test is whether the adjustment is reasonable, and if it is then there can be no justification for why it is not made. We will not be expected to make adjustments that are not reasonable.

There is as yet no clarity on what may be 'reasonable' although the Code of Practice will include factors that should be taken into account. It will be for us to decide the reasonableness of adjustments based on the individual circumstances of each case. Factors to consider may include the financial or other resources available, the effectiveness of the adjustment, its effect on other pupils, health and safety requirements, and whether aids have been made available through the SEN route.

The reasonable adjustments duty is intended to complement the accessibility planning duties, and the existing special educational needs statement provisions, under which Local Authorities have to provide auxiliary aids and services where a statement details that provision. When a disabled pupil does not have an Education Health Care plan for SEN (or the EHCP does not provide the necessary aid) then the duty to consider reasonable adjustments and provide such auxiliary aids will fall to the school.

As in the previous legislation we are not under a duty to make alterations to the physical environment though we should be planning to do so as part of our Accessibility planning.

4. AIMS OF THE ACCESSIBILITY PLAN

The planning duties on schools and Local Authorities are the same as the duties in the previous DDA. Schools are required to have an Accessibility Plan detailing how they will improve access to the physical environment, increase access to the curriculum for disabled pupils, and how they will improve the availability of accessible information to disabled pupils. The LA is required to have an Access Strategy.

At St. Michael's School, we have a commitment to equal opportunities for all members of the school community and our Accessibility Plan outlines our intention to remove barriers for disabled pupils and to:

- increase the extent to which disabled pupils can participate in the different areas of the national curriculum, increase access to extra-curricular activities and the wider school curriculum;
- improve the physical environment of schools to enable disabled pupils to take better advantage of education, benefits, facilities and services provided; improve the availability of accessible information to disabled pupils. NB At the moment all the entrances are only accessible by steps and improvements to the building have been considered by the Governors and the local authority. However, at this time there is no way of providing access to wheel chairs to our school.

Furthermore, under our equality duties, we intend to improve the physical environment of the school to enable any disabled person (pupil, parent/carer, employees or visitor) to access facilities and services and improve the availability of accessible information to any disabled person.

This Accessibility Plan will, therefore, **begin the process of addressing the needs of disabled people** through specific targets.

It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

Compliance with the disability duty under the Equality Act is consistent with the school's aims and Single Equality Scheme, and the operation of the school's Special Educational Needs (SEN) policy.

The Action Plan for physical accessibility relates in part, to the Asset Management Plan (access section) of the School, which is undertaken regularly by the Local Authority. It may not be feasible to undertake some of the works during the life of this Accessibility Plan and therefore some items will roll forward into subsequent plans. The Plan will need to be revisited prior to the end of each first three-year plan period in order to inform the development of the new Plan for the following period.

St. Michael's School strives to ensure that the culture and ethos of the school are such that, whatever the abilities and needs of members of the school community, everyone is equally valued and treats one another with respect. Pupils should be provided with the opportunity to experience, understand and value diversity.

5. KEY OBJECTIVES

The key objectives of our Accessibility Plan are as follows:

- To reduce and eliminate barriers to access to the curriculum and to full participation in the school community for pupils, and prospective pupils, with a disability.
- We are committed to providing a fully accessible environment which values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.
- We are committed to providing all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles; and we endorse the key principles in the National Curriculum Framework ([Click here to access](#)) which underpin the development of a more inclusive curriculum:
 - setting suitable learning challenges;
 - responding to a pupil's diverse learning needs;
 - overcoming potential barriers to learning and assessment for individuals and groups of pupils.

6. CONTEXTUAL INFORMATION

St. Michael's Nursery and Infants School is a smaller than average Community School with an age range of 3-7 situated on two adjacent sites.

Our catchment area encompasses St.Michael's (70%), Mossbay (12.5%) and St. John's (10%) wards, all of which have low levels of adult education and unemployment rate of 7.3%. In addition 27% of the school population comes from a single parent family.

On balance the fact that our children come into Nursery well below age expectation and achieve levels similar to national standards by the end of KS1 would signify outstanding attainment in our school.

Structure and organisation

- A 'Vulnerability Audit' is used half termly to identify children needing extra support through nurture or intervention groups - impact of intervention strategies are evaluated to determine emotional wellbeing and progress.
- Engagement with parents and work carried out with a range of partners is an important aspect of the school.
- We place strong emphasis upon curriculum enrichment and have a busy programme of curriculum visits and visitors.
- We strive to play an active role within our local and extended community working closely with University of Cumbria at Carlisle and various support staff training agencies. We work in partnership with schools in the local consortium and more recently LASL and CASL in our area. We are not a church school but have strong links with the local church and have a programme of sports competitions with local infant's schools.

7. DEVELOPMENT

7.1 The Purpose and Direction of the School's Plan: Vision and Values

St Michael's Nursery and Infant School:

- has high ambitions for its disabled pupils and expects them to participate and achieve in every aspect of school life;
- is committed to identifying and then removing barriers to disabled students in all aspects of school life;
- values the individual and the contribution they make to all aspects of school life;
- will strive to ensure that its disabled pupils have access to all areas of the curriculum and teaching resources so as to develop fully in their education;
- acknowledges a commitment to embrace the key requirements set out in the National Curriculum Inclusion Statement;
- will continue to focus on removing barriers in every area of the life of the school;
- is committed to embracing equal opportunities for all members of the school community.

7.2 Information from Pupil Data and School Audit

Key starting point should be assessments of:

- The nature of the school population for whom the school is planning;
- The nature of the school, including a consideration of the impact of the school's existing plans and priorities.

Pupil information will include a range of data:

- Pupils already in school and moving through it.
- The nature of the future intake (advance information from pre-school, etc.)

There should be some sort of audit of the school's strengths and weaknesses in working with disabled pupils. This might include:

- the level of staff awareness of Equalities legislation;

- the presence of disabled pupils and their participation in the life of the school, for example, patterns of attendance and exclusions, areas of the curriculum to which disabled pupils have limited or no access, the participation of disabled pupils in after school clubs and school visits, parts of the school to which disabled pupils have no or limited access;
- the impact on disabled pupils of the way the school is organised, for example, school policies and practices around the administration of medicines, time-tabling, anti-bullying policy, school trips and teaching and learning;
- the physical environment of the school;
- the curriculum;
- the ways in which information is currently provided for disabled pupils;
- outcomes for disabled pupils including exams and end of key stage results and achievements in extra-curricular activities.

Key starting points for the school's plan:

- The school has identified that we have, as at the start of the academic year 2016/2017 2 Autistic pupils, regarded as disabled under the terms of the DDA. There are also 6 others who are on the code of practice and 1 child who has severe learning disabilities.
- Our annual development plan takes into account the needs of our diverse student population as well as the needs of its wider community.

In order to ensure that our data is up to date and accurate we will:

- liaise with the Local Authority so as to identify and therefore plan a response to students with a disability well before they arrive;
- improve the information dissemination from our Learning Support Facility;
- implement a system that allows parents to inform us if they themselves have a disability;
- identify early on in their school career any obstacles to the effective learning of disabled students;
- use all available data to inform the planning of individual student learning patterns;
- use information supplied via previous LA Asset management/Accessibility Audits to assist us to develop an action plan to reduce obstacles for the school community.

7.3 Views of those Consulted during the development of the Plan

The plan should be informed by:

- The views and aspirations of disabled pupils themselves;
- The views and aspirations of the families of disabled pupils;
- The views and aspirations of other disabled people or voluntary organisations;
- The priorities of the local authority;

St. Michael's Nursery and Infant School will:

- ensure the development of the plan involves coordination with the Local Authority in line with the LA Accessibility Strategy and ensure that St. Michael's School provides the best choices for students wanting to enrol here;
- consult the full governing body/SEN governor/relevant sub-committee;
- consult staff including specifically SENCo, safety committee;
- set up a structure to allow the views of students, both able and disabled to be taken into account;
- survey parents/carers to ascertain their views on our provision for disabled students and any developments they feel would be of use to the students and also offer parents alternative ways of answering the survey;
- involve outside agencies who already exist to assist disabled students in their education and future careers;
- ensure the views of ALL those consulted are taken into consideration and the plan modified where reasonable to meet the needs of stakeholders;

8. SCOPE OF THE PLAN

8.1 Increasing the extent to which disabled pupils can participate in the school curriculum

- to investigate how the access to those areas of the curriculum that are normally difficult for disabled students to access can be improved;
- to further investigate what support or alternative approaches can be adopted to increase the choice/participation of disabled students;
- to investigate alternative provision/routes and collaboration that will assist disabled students to learn including liaison with the LA Special Educational Needs and Disabilities (SEND) Provision Team.

The school plans to increase access to the curriculum for pupils with a disability, expanding the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as able-bodied pupils. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these pupils in accessing the curriculum. The school will continue to seek and follow the advice of LA services, such as specialist teacher advisers and appropriate health professionals from the local NHS Trusts.

The school will endeavour to improve access to the curriculum through

- Devising and implementing appropriate staff training and development.
- Improve access to a full, broad and balanced curriculum
- Ensure that teaching and learning is accessible through school and classroom organisation and support, especially deployment of staff, timetabling, curriculum options and staff information and training.

Governors will ensure that teaching and learning opportunities are enhanced for all those in the school community with disabilities, through:

- consideration of whole-school ways of increasing participation in activities such as after-school clubs, leisure and cultural activities, as well as out-of-school visits, particularly for difficult-to-include pupil groups, such as those with physical or behavioural challenges;
- evaluation of how threats to participation have been analysed using risk assessment proforma and action taken to reduce those identified risks;

- identifying how classroom support arrangements, such as deployment of teaching assistants, provision of ICT, contribute to, and enhance learning opportunities;
- deciding how the implementation of specific strategies such as flexible or shared timetabling, nurture groups, counselling provision, access to therapy, first day absence response, have enhanced attendance and participation;
- consideration of how classroom/group organisation has been targeted to ensure that all pupils achieved increased levels of school success;
- consideration of the school response to pupils through the application of the SEN Code of Practice has improved pupil attainment and how effective communication regarding specific pupil needs has been achieved and is monitored;
- consideration of how liaison, increased communication and relationships with external agencies has supported and enhanced pupils' access to the curriculum and how this is monitored and improvements targeted;
- identifying how staff training needs in order to effectively meet the diverse abilities and disabilities of all pupils, including prospective pupils who may require manual handling, signing, personal hygiene support etc. has been identified and supported;
- identifying pupil peer support mechanisms and the ways that the school has ensured pupils have a voice in decisions that affect them;
- taking action to ensure that disabled members of the school community are seen in a positive light through publications promoting disability and providing positive role models of adults with disabilities to encourage success and achievement;
- ensuring that action has been undertaken to ensure that parents and carers see themselves as partners in their children's education and are increasingly willing to actively support their children's education;
- enhancing the positive culture and ethos of the school by undertaking quality marks or other additional intervention to improve the schools ability to include those with disabilities.

8.2 Improving the physical environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services

- in consultation with the LA (where necessary and appropriate) investigate various improvements to the site;
- improve accessibility points to different curriculum areas;
- investigate ways of making the site more accessible to both disabled parents and adult users.

The school will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment and colour schemes, and more accessible facilities and fittings. This is required regardless of whether the school has pupils or visitors with disabilities and is preparation for a situation when they do.

The accessibility plan is evaluated and monitored regularly to be consistent with the aims of the accessibility plan. The Headteacher is responsible for monitoring health and safety in our school and she also monitors and evaluates improvements the physical environment of the school and physical aids to access education. The physical environment includes things such as steps, stairways, kerbs, exterior surfaces and paving, parking areas, building entrances and exits (including emergency escape routes), internal and external doors, gates, toilets and washing facilities, lighting, ventilation, lifts, floor coverings, signs and furniture. Aids to physical access include ramps, handrails, lifts, widened doorways, electromagnetic doors, adapted toilets and washing facilities, adjustable lighting, blinds, induction loops and way-finding systems.

Physical aids to access education cover things such as ICT equipment, enlarged computer screens and keyboards, concept key boards, switches, specialist desks and chairs and portable aids for children with motor coordination and poor hand/eye skills, such as extra robust scientific glassware and specialist pens and pencils.

In maintained schools the provision of a special piece of equipment or extra assistance will generally be made through the SEN framework and to a lesser extent through the planning duty which applies to all schools. The distinction between auxiliary aids and services provided through the SEN route and those provided under the planning duty is that the SEN duties relate to the individual, whereas the planning duty relates to the provision of aids or services in terms of the population (and future population) of the school. For example, a pupil with visual impairment might have low vision aids provided through the statement of SEN but the school might as a general measure provide blinds and adjustable lighting and colour distinction through the planning duty.

The Governing body will want to consider and reflect upon all areas of the physical environment such as:

- Changes to improve access to doors, stairs, toilet, changing facilities, and consideration of the impact of signs, colour schemes and colour contrast, lighting, heating etc.
- Changes outside of the school building e.g. provision of disabled parking etc.
- Management and organisation issues such as maintenance of lights, fire alarms appropriate to those with hearing impairments etc.
- Increased access to and maintenance of, auxiliary aids, ICT apparatus such as computer hardware/software.
- Improvement to the acoustic environment that might include installation of soundfields/hearing loop systems.
- Improvements of storage implications for wheelchairs and other mobility devices.
- Application and progress on capital funding for major access works funded by the Schools Access Initiative through the Local Authority, and details on schools funds delegation to support targets such as provision of suitable floor coverings, furniture and layout of the playgrounds.

8.3 Improving the delivery to disabled pupils of information that is provided in writing for pupils who are disabled

St. Michael's School will strive to:

- produce all school literature at the correct font size to help visually impaired students;
- investigate alternative ways of providing access to information, software and activities;
- investigate ways of communicating effectively with disabled parents and carers and other disabled adult users of the site.

The school plans to improve the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include handouts, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame. The school will make itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested.

This may be best achieved by the following action points, however, these are not exclusive:

- Informing readers that school published material is available in a selection of formats e.g. Makaton, audio tapes and identifying how they can access this provision if requested.

- Considering how to increase information accessibility for those who have English as an additional language or other communication impairments, at school meetings etc.
- Identifying how they have considered the readability of information including that provided by the school website, and how it is monitored to ensure accessibility to a wide range of diverse needs and abilities.
- Identifying how textbooks and other pupil information are selected and provided to meet a diversity of pupil need.
- Ensuring the monitoring of effectiveness of adult support to enhance the opportunities for pupils/parents who have difficulties in accessing information.

8.4 Financial Planning and Control

The Headteacher together with the Finance Committee will review the financial implications of the School Accessibility Plan as part of the normal budget review process. The objective is that over time School Accessibility Plan actions will be integrated into the School Development Plan.

St. Michael's School will finance the plan by identifying costs and incorporating them into current and future budget commitments.

9. IMPLEMENTATION

9.1 Management, Coordination and Implementation

St. Michael's School will undertake a disability audit using a cross section of staff, pupils and parents (refer to Section 7.3).

As a result of the audit, we shall:

- produce action plans, with definite time scales for the implementation of the actions implicit in the plan;
- share information with staff;
- present the plan to the governing body for their approval;
- modify the plan based on the views of stakeholders;
- review the plan and the associated action plans to see if milestones are being met. A new Accessibility Plan will be drawn up every three years.

9.2 Monitoring

St. Michael's School recognises that monitoring is essential to ensure that pupils with disabilities are not being disadvantaged, and that monitoring leads to action planning.

9.3 The role of the LA in increasing accessibility

Governors may wish to consider the impact the County Council has had upon supporting the school to achieve successful implementation of their accessibility plan (where relevant). This may include identifying how the County has:

- provided training and awareness opportunities on issues regarding inclusion to staff, governors and parents and how this has been used in school to promote inclusion, such as, attendance on courses, use and adaptation of County Council provided information, etc.;

- promoted collaboration through the provision of information aimed at sharing good practice;
- encouraged liaison between special and mainstream schools to share expertise and pupil placement;
- ensured that schools are aware of support services that provide advice to schools and staff;
- provided specialist help to identify ways forward in increasing the inclusion of all pupils;
- linked building adaptations to refurbishment and capital building works;
- informed schools how information can be provided in a number of different formats.

9.4 Accessing the School's Plan

- Raising awareness of font size and page layouts will support pupils with visual impairments.
- Auditing the school library to ensure the availability of large font and easy read texts will improve access.
- Auditing signage around the school to ensure that is accessible to all is a valuable exercise.
- Auditing the use of, and methods of displaying materials around the school.

This may be done through:

We will ensure that the plan is available in different formats where requested.

The school will achieve successful implementation of the accessibility plan with continued support in the areas of:

- providing training and awareness opportunities to staff, Governors and parents/carers on issues regarding equality and inclusion;
- providing targeted training for particular groups of pupils/staff;
- promoting collaboration through the provision of information and the sharing of good practice;
- encouraging liaison between other local schools including special schools;
- seeking support/advice from outside the school, from services, other agencies and organisations;
- ensuring that St. Michael's School is aware of all support services that provide advice to schools and staff.

10. RELATED POLICIES

The Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Curriculum Policies
- Single Equality Scheme, Policy/Objectives
- Health & Safety
- Special Educational Needs
- Whole School Behaviour
- School Development Plan
- Complaints Policy

St. Michael's Nursery and Infant School Accessibility Plan

In drawing up this Accessibility Plan, the following were consulted:

- *Full Governing Body/SEN Governor/relevant sub-committee*
- *Staff (teaching and support)/SENCo*
- *Parents/carers*
- *Pupils/school council*

The plan was approved on: FEBRUARY 2017

Date of Accessibility Plan: FEBRUARY 2017

Date for next Review: FEBRUARY 2017

Senior Member of staff responsible for the Plan : Head teacher

Governors & Committees responsible: *Chair of Governors, with the Vice Chair of Governors, the Senior Management Team*

ACCESSIBILITY PLAN 2017 - 2020

IMPROVING THE PHYSICAL ACCESS AT ST. MICHAEL'S SCHOOL

An Asset Management Plan was carried out by _____ in _____ and a number of recommendations made:

AMP Report Ref. <i>(if relevant)</i>	Item	Activity	Timescale	Cost £	Responsibility

ACCESSIBILITY PLAN 2017 - 2020

IMPROVING THE DELIVERY OF WRITTEN INFORMATION AT ST. MICHAEL'S SCHOOL

TARGET	STRATEGY	OUTCOME	TIMEFRAME	ACHIEVEMENT

ACCESSIBILITY PLAN 2017 - 2020COMPLETED EXAMPLE - IMPROVING ACCESS TO THE CURRICULUM

Target	Strategy	Outcome	Timeframe	Achievement
Revised training for all staff in teaching children with a hearing impairment.	Hearing Impaired Service to lead training in use of transmitter and general understanding of the needs of a hearing impaired child.	All staff have clear understanding of the needs of hearing impaired children and how to ensure the curriculum is fully accessible to them.	Autumn 2012	Hearing impaired child is successfully included in all aspects of school life.
Training for staff in the identification of and teaching children with ASD and other specific learning difficulties.	All staff attend appropriate training. Outreach provision from external agencies.	All staff are familiar with the criteria for identifying specific needs and how best to support these children in the classroom.	Autumn 2012	Children with ASD are successfully included in all aspects of school life.
All out-of-school and extra-curricular activities are planned to ensure the participation of the whole range of pupils	Review all out-of-school and extra-curricular provision to ensure compliance with legislation	All out-of-school and extra-curricular activities will be conducted in an inclusive environment with providers that comply with all current and future legislative requirements	Summer 2012	Increase in access to all school activities for all disabled pupils
Classrooms are optimally organised to promote the participation and independence of all pupils	Review and implement a preferred layout of furniture and equipment to support the learning process in individual class bases	Lessons start on time without the need to make adjustments to accommodate the needs of individual pupils	December 2012	Increase in access to the National Curriculum
Training for Awareness Raising of Disability Issues	Provide training for governors, staff, pupils and parents. Discuss perception of issues with staff to determine the current status of school	Whole school community aware of issues relating to Access	July 2012	Society will benefit by a more inclusive school and social environment
Review TA deployment	In review meetings with teaching assistants establish when they are available to support children each day that may be different to their current working hours.	Adult support is available during key times that individual children may need support i.e. lunchtimes, PE lessons, extra-curricular activities.	Reviewed Annually	Children who need individual adult support to participate in some activities have access to this support.

ACCESSIBILITY PLAN 2017 - 2020COMPLETED EXAMPLE - IMPROVING THE PHYSICAL ENVIRONMENT

An Access Audit was carried out by _____ in _____ and a number of recommendations made:

Access Report Ref.	Item	Activity	Timescale	Cost £	Responsibility
1	Disabled parking bay(s) and signs	Needed by school office for access by parents of children with disabilities and parents who have disabilities	Autumn 2012		
4	Dropped kerbs either side of main vehicle entrance.	Pedestrian access	Spring 2013		
6/11	Pupil access to practical science.	<ul style="list-style-type: none"> ▪ Rise and fall lab desk for wheelchair access ▪ Lower unit containing sink, gas tap and electrical sockets to support access to pupils in wheelchairs 	Summer 2014		
9	Access to school office	<ul style="list-style-type: none"> ▪ There should be a sign indicating where people with disabilities should go. ▪ A communication system/buzzer system to the school office at wheelchair level outside of the main entrance at the bottom of the steps so people with disabilities can indicate that they are there. (Possibly an induction loop for hearing aid users.) 	Spring 2014		
32	Staircases	Colour-contrasted stair nosings and handrails to both sides of staircases	Summer 2014		
32/2	Reception and corridor decoration	Colour contrast door frames, skirting boards, carpeting and walls	Autumn 2012		
29	Accessible toilet	To provide one unisex accessible toilet in A Block	Summer 2013		
27/33	Provision of a lift to access the upper floors	Lift to LRC Lift in B Block	Discussion to be held with LA by (DATE)		
18/20	Provision of induction loops	Reception Hall B	Autumn 2013		
24	Improve Reception facilities	The counter is lowered to a maximum height of 800mm, with knee-space under.	Summer 2013		
31	Light switches, power outlets and emergency alarm buttons	To be moved to wheelchair height, as finances allow.	Autumn 2014		
29/3	Adapted wash basins to be at wheelchair height with space under for wheelchair to allow user	To be moved to wheelchair height, as finances allow.	Autumn 2014		

APPENDIX B(ii)

Access Report Ref.	Item	Activity	Timescale	Cost £	Responsibility
	to get close to wash basin.				
N/A	Front entrance to school refurbished with a shallower slope.	Appoint designer and builders to refurbish entrance area to provide a more suitable, shallower slope for wheelchair and disability access.	Autumn 2013		
N/A	Doors out to the playground by room 5 need widening.	Final exit doors to the playground near room 5 to be widened to achieve a minimum width of 900mm to allow wheelchair access/egress and the mat well needs to be infilled	Autumn 2012
