

PHYSICAL EDUCATION AND SPORTS PREMIUM GRANT

This funding is provided jointly by the Department for Education and the Department for Culture, Media and Sport and the funding can only be spent on provision of P.E. and Sport in Primary Schools.

Whilst schools must spend the additional funding on improving their provision of P.E. and Sport, they will have the freedom to choose how they do this.

St. Michael's Nursery and Infant School Sport Premium Allocation for 2015 - 16 was £8208.00

We spent the allocation on supporting St Michael's School commitment to promoting healthy lifestyles and physical well-being for all our pupils and to support children in reaching the performance level they are capable of.

Over the past year we have spent the funding on:

- Investing in a specialist PE coach to work alongside the teachers and higher level teaching assistants to deliver the sports curriculum for all classes, to improve their skills and knowledge so improving the quality of lessons.
- Sports coaches have worked with groups of children from Reception, Year One and Year Two in sports such as Multi-skills, Football, Tennis, Cricket and Dodgeball.
- Provide National Trust Rangers to work with the children to develop self esteem and collaborative learning during our whole school educational visit to Keswick.
- Provide training courses in PE and Sport for teachers.
- Purchase equipment and resources to enhance our teaching and learning in this area.
- Establish partnerships with local community sports clubs.
- Provide a broad range of After School Clubs.

What impact has this funding had on pupil's PE and Sport participation and attainment?

- An increased range and participation in sports After School Clubs
 - Sporting activities during play time.
 - The commitment and quality of work that the sports coaches are bringing into school is accelerating the children's enjoyment of and enthusiasm for physical activity. It is encouraging the children to pursue higher goals - for example there has been a marked increase in the amount of children joining local football clubs.
 - There has been a sharp rise in attainment by all children in agility, balance and co-ordination.
 - The children now confidently and regularly demonstrate the following generic skills:
1. Spatial awareness, consideration for others, safety awareness for self and others.
 2. Practise and perform skills safely and to explore basic skills and actions.
 3. Remember and repeat simple skills and actions with increasing control and co-ordination.
 4. An awareness of body weight, weight transference in different movements and co-ordination in gross-motor skills.
 5. Practise skills and actions individually, with a partner and in small group/team.
 6. Evaluate and improve own performance and show their performance to others with confidence.

This clearly shows effective expenditure of P.E. and Sport Premium at St. Michael's Nursery and Infant School.
